### Category (ii) Medicines

Category (ii) medicines are a prescription (such as antibiotics, eye/ear drops etc) or non-prescription (such as paracetamol liquid, cough syrup etc) medicine that is used for a specific period of time to treat a specific condition or symptom, and provided by a parent for the use of that child only or, in relation to Rongoa Māori (Māori plant medicines), that is prepared by other adults at the service.

With regards to administration of paracetamol or any other children's pain killer, we will administer this under the following conditions only. Paracetamol or any other child painkiller will only be administered under the directions given on the label which must be prescribed under the child's name.

Paracetamol or any other child painkiller will only be administered for pain for the minimum length of time prescribed for a specific condition. Paracetamol or any other child painkiller will not be administered to manage a child's fever if they are attending normal sessions over this period. If a child has a fever, they are required to stay at home and for the parent to manage their fever as directed by a medical specialist.

I acknowledge that written authority from a parent is to be given at the beginning of each day a category (ii) medicine is to be administered, detailing what (name of medicine), how (method and dose), and when (time or specific symptoms/circumstances) medicine is to be given.
